Spoločnosť Silicon Labs oznámila odkúpenie spoločnosti Micrium, tvorcu real-time operačného systému (RTOS) µC/OS.
Buzzword: IoT
Je otázne, čo bude s µC/OS pre kutilov, študentov a začínajúce firmy, o ktorom sme písali tu.

Oficiálny oznam:
We are very pleased to share the news that we have been acquired by Silicon Labs. Combining a leading, commercial-grade embedded RTOS with Silicon Labs' IoT expertise   and solutions will help simplify IoT design for all developers. Our RTOS and software tools will continue to be available to all silicon partners worldwide, and we will continue to fully support   existing as well as new customers.
