

[DS4426](#) : Low-cost, quad sink/source current DAC for power-supply adjustments and tracking

[MAX13223E](#) : RS-232 transceiver integrates  $\pm 70V$  fault protection, eliminating the need for external protection circuitry

[MAX9879](#) : Stereo subsystem provides richest audio quality and highest output power from a lithium-ion battery

[MAX16814](#) : Maxim's new HB LED driver slashes backlighting costs in LCD TVs, monitors, and automotive displays

[MAX16910](#) : Micropower linear regulator with reset for always-on automotive applications

[MAX3671](#), [MAX3673](#) : Frequency synthesizers with sub-picosecond jitter ease timing design for high-speed systems

[MAX17409](#) : Single-phase Quick-PWM™ controller for NVIDIA GPUs

[MAX16065](#), [MAX16066](#) : 12-/8-channel sequencers/monitors integrate current monitoring and nonvolatile fault registers
