

#EMB2016

[Embedded World 2016](#)

buzzwords: **IoT, wearables, smart**

[viac...](#)

Vyberáme z twittera (doplňané priebežne):

- Infineon: [Infineon voucher](#)
- Xilinx: [Say Hi to ZYBO: You can win a Zynq-based Digilent ZYBO Dev Board at Embedded World—I think](#)
- LDRA Technology: [Visit us in Hall 4, Booth 432 for your chance to win a raspberry_pi. There are prizes to be won throughout all of embedded world.](#)
- System Vision: [DESIGN AND SIMULATE COMPLETE ANALOG, DIGITAL, MIXED SIGNAL AND ELECTRO-MECHANICAL SYSTEMS. FOR FREE.](#)
- Digi International: [Did you know you can win an #XBee Development kit in the MouserElecEU booth at Embedded World? Stop by!](#)
- UDOO NEO [SBC](#)
- janZ tec: [Industrial computer powered by Raspberry Pi](#)
- AVNET Meme - Silica: [Join our TI Lunch today at 11:30 on our booth 1/370 at EW 2016 and get a free Multi-Standard CC2650STK SensorTag!](#)
- ARM: [ARMBoardWins Competition](#)
- Exosite: [Speak with an IoT expert and register to win a road bike in the Exosite booth](#)
- PicoTCP: [Tiny TCP/IP Stack for small microcontroller](#)
- ARM: [Are you an academic, educator or student in EE/CS/CE? Visit Hall 5 Stand 338 to sample our Education Kits](#)
- Open Electronic: [Embedded MP3 Player & Recorder: The firmware](#)
- Micrium: Embedded/IoT Survey: Enter to win a Freedom dev platform. Booth 4-678 or [here](#)
- ARM: Introducing Cortex-A32: [ARM's smallest, lowest power ARMv8-A processor for next generation 32-bit embedded applications](#)
- Microchip: [DM164137 DEV KIT, CURIOSITY DEBUGGER](#)

- Intel: [Intel Quark based xxxUINO](#)
- TI: [Touch the revolution with the most noise immune capacitive touch microcontroller](#)
- Microchip: [EtherCat Slave controller](#)
- Microsemi: [360° rotary inductive sensor](#) based on [LX3301A](#)
- AVNet: [Avnet SmartFusion2 KickStart Kit 59.95 USD](#)

[Videotéka EW2016](#)
