## Product updates

- Updated SFR view to display System Control Space (SCS) registers for Cortex-M7 based microcontrollers
- Updated some Japanese translation strings
- Fixed registration/activation issue in License Manager

## New MCU and board support

- Added NXP KE14Z/KE15Z (Cortex-M0+)
- Added NXP KE14F/KE16F/KE18F (Cortex-M4)
- Added NXP Freedom-KE15Z board
- Added NXP TWR-KE18F board
- Added STMicroelectronics STM32F769I-DISCO board

## Standard peripheral library and microcontroller software

- Updated NXP KL28Z CMSIS and SVD files
- Updated NXP Kinetis K Series SVD files
- Updated STMicroelectronics SVD files
