

Celkom dobre spracovaný rýchly pohľad na pamäte typu NOR a NAND - základné delenie, pre ktoré aplikácie sú vhodné, ...

Selecting a Flash Storage Solution

Micron has an extensive range of NOR and NAND Flash storage products available, including several code and data Flash memory solutions—

from serial and parallel NOR, to raw and managed NAND, to solid state drives (SSDs). Selecting the right solution requires an understanding of

each technology, including attributes related to I/O performance, pin count, data integrity differences dependent on the system usage model, and

manufacturing longevity requirements. This guide describes the various Flash technologies and provides a systematic way for the system designer

to select the optimal nonvolatile memory solution based on key design considerations. The application requirements will ultimately dictate the

right solution.....
